

David Aylward

WEB DEVELOPMENT

PROFILE

Full Stack web developer leveraging a computer engineering background to build a more interactive and user friendly experience on the web. I am in the process of earning a certificate in full stack development from the University of North Carolina Charlotte, with newly developed skills in JavaScript, CSS, React.js, and responsive web design. Known as an innovative problem solver passionate about developing apps, with a focus on front end design and development. With each project, my aim is to best engage my audience for an impactful user experience. I applied aspects of third party APIs and bootstrap in a recent project. I worked on a team of two to develop a multi-page music search app that helps consumers and content creators track their favorite music. I'm excited to leverage my skills as part of a fast-paced, quality-driven team to build better experiences on the web.

WORK EXPERIENCE

- **Repair Agent**

BEST BUY

November 2021 - Now

As a repair agent at Geek Squad I was required to troubleshoot and solve complex computer related issues. On top of this I was also required to give customer service and break down key parts of my job without using technical jargon.

- **Shift Leader**

FIVE GUYS

From - Until

As a shift leader at Five Guys I was required to manage a company on multi thousand dollar days. I was in charge of food quality, employees, money, and closing. I showed great problem solving skills in resolving issues with customers and employees.

EDUCATION

- **High School Diploma**

CENTRAL ACADEMY OF TECHNOLOGY AND ARTS

2017 - 2021
